SUBJECT INDEX

Accuracy 379, 423
Akaike information criterion 289
Analysis 188, 463
Analytic simulation 211
Application 313
Application, earning per share 229
Application, firm: utilities 229
Application, regional economic models 299
ARIMA models 239, 289
Bias 393
Bootstrapping 211, 355
Box–Jenkins analysis 463
Box–Jenkins applications 261
Business survey of forecasting models 379
Causal methods versus naive extrapolation (time series) 423
Causality 195
Cointegration 43
Combining forecasts 229, 239
Comparative methods 313
Computer forecasting 379
Confidence intervals 211, 484
Conditional and unconditional forecasting 289
Currency baskets 81
Currency options 179
Disemployment and unemployment effects 289
Distribution of forecasts 269
Econometric models 355
Effective exchange rates 81
Empirical study 261, 423
Estimation 245
Ethics 188
Evaluating forecasts 423
Evaluation 484
Evaluation, profit earnings ex-ante 299
Ex ante 115
Exchange rate 3
Exchange rates 17, 53, 65, 81, 115, 159
Expert systems 355
Forecast accuracy 65
Forecast comparisons 65
Forecast error 393
Forecast errors 97
Forecasting 3, 159, 188, 195, 261, 484
Forecasting accuracy 53, 261
Forecasting book evaluation 515
Forecasting books 515
Forecasting evaluation 474
Forecasting market share 423
Forecasting models 261, 474
Forecasting sales 423
Forecasts 245
Foreign currency futures 131
Foreign exchange 179
Forward exchange rate 171
Futures prices 159
GARCH 131
